

ERTICO – ITS Europe is a dynamic public-private partnership uniting up to 120 members service providers, suppliers, traffic and transport industry, research institutions, public authorities, user organisations, connectivity industry, and vehicle manufacturers. We envision a transport ecosystem that leverages digitalisation, automation, and connectivity to benefit people, the environment, and the economy. As a leading voice in Intelligent Transport Systems (ITS), we empower intelligent, safe and resilient mobility for an inclusive and sustainable society. We contribute and facilitate innovative solutions and services through EU-funded projects, innovation platforms, international cooperation, advocacy, and the flagship ITS Congresses.

We are currently seeking to recruit a full-time position our Innovation & Deployment Department:

SENIOR PROJECT MANAGER

Specialised in Intelligent Transport Systems (ITS) and Connected & Automated Driving

The Senior Project Manager (SPM) is the leader of a project team, responsible for all aspects of project management, including the delegation of designated tasks to the project team members within the I&D department as well as other ERTICO departments. He/she also contributes to the ERTICO strategy on bringing intelligence into mobility and the overall promotion of ITS in Europe through participation in ERTICO activities and new developments.

Your main responsibilities

- Supervises and is responsible for technical and administrative issues during project proposal development and for successful submission process and contributes in project proposal concept definition,
- Leads project proposal concept definition and proposal building process by writing and compiling technical, scientific, administrative and financial information provided by the Consortium, including description of work, activity planning and budget,
- Ensures efficient organisation of activity coordination,
- Acts as the official point of contact for the EC and for the project consortium members,
- Manages and coordinates the technical project activities with the consortium members, including the EC Annual review, and plans and monitors project activities and ensures the deadlines are met
- Supervises project dissemination strategy and activities in collaboration with the Project Support Manager, the Project Communication officer and the Consortium Members including the development and implementation of work plans and the technical program for events, conferences, demonstrations and workshops
- Identifies potential new Partners and contributes to the Partners acquisition process,

Qualifications we require:

- First or higher university degree (Master or PhD or equivalent)
- Knowledge in ITS related fields is an asset and especially in Connected & Automated Driving
- At least 5 years of experience in EC project administration and technical coordination and proven track record of project proposal development and writing (preferably Horizon Europe or H2020)
- Activity knowledge/expertise (technical and/or business) with overall understanding of administration, RTD and deployment aspects
- Excellent English written and oral skills& knowledge of one or more other languages is an asset
- Excellent knowledge of MS Office tools (PowerPoint – Word – Outlook –Excel) and Internet
- Excellent knowledge of Project Management Tools
- Facilitator skills during proposal building process and able to build consensus

At ERTICO, our culture is rooted in strong core values which guide our daily ambition and drive the meaningful work we do with our Partners across the transport and mobility sector. **As part of our team, we offer:**

- An excellent working opportunity in a dynamic international environment with a multi-cultural team
- An attractive extra-legal benefit package along with the salary
- A culture of continuous learning and visionary working atmosphere where we empower our team members to grow, innovate, and adapt to the ever-changing mobility landscape
- A work environment based on intellectual curiosity where our values (cooperative, passionate, impactful, open and visionary) embrace everything we do to achieve our vision
- A highly skilled team with diverse expertise and "learn-it-all" mindset
- A visionary working atmosphere which aims to be positively impactful for you, your skills and career development

Please send your **CV and motivation letter** to recruitment@mail.ertico.com

We aim to ensure a transparent, respectful, and inclusive recruitment process as an **equal opportunity employer** committed to diversity and inclusion. All qualified applicants are considered regardless of background or identity. All applicants receive a formal acknowledgement of their submission. The successful candidates will be invited to a first interview with the prospective supervisor
