

evon joins the ERTICO Partnership

ERTICO is pleased to announce that evon has joined its Partnership.

[evon GmbH](#), based in St. Ruprecht an der Raab, Austria, is an innovative software company that has been developing manufacturer-independent, scalable, and future-proof automation software for over 15 years. At the heart of the company is evon XAMControl – a modular and powerful 360° automation and control system platform that is used across a range of industries in building automation, industry, and traffic management. As part of the SPIE Group, evon combines local innovation with global expertise and sustainable stability. True to the motto: “We increase your success – because we live and breathe digitalization.”

By joining the ERTICO Partnership, evon aims to actively contribute its expertise in scalable automation and control systems to the advancement of intelligent transport systems across Europe. The company is particularly looking forward to collaborating with a diverse network of industry leaders, public authorities, and research institutions to co-create innovative, interoperable solutions that address the evolving challenges of digital mobility and infrastructure. Through this partnership, evon seeks to strengthen its role in shaping sustainable, data-driven transport ecosystems and to further expand its international reach within the ITS community.

“Joining ERTICO represents an exciting opportunity for us to bring our experience in automation and digitalization into a broader European context. We look forward to exchanging ideas, fostering strong collaborations, and jointly developing forward-thinking solutions that will define the future of smart mobility,” said Daniel Seewald, Authorised Officer / Head of Tunnel & Traffic Infrastructure at evon GmbH.

The ERTICO Partnership bridges the gaps between stakeholders across the ITS community to help make mobility safer, more efficient and sustainable. Together, we lead the digital transformation of transport through the development of cutting-edge technologies, new services and innovative mobility solutions to move people and goods in smarter ways. Our Partners share the joint mission to actively promote sustainable collaborative relations with EU institutions and policymakers by connecting local and regional transport organisations with national authorities.

Joost Vantomme, CEO of ERTICO – ITS Europe commented: *“Welcoming evon to the ERTICO Partnership further strengthens our ecosystem with expertise in automation and control systems. This is key to enabling interoperable, resilient and scalable ITS solutions that support Europe’s mobility transformation.”*

Joining the ERTICO Partnership is an important way to connect the dots between different sectors across our complex ecosystem. The Partnership enables close collaboration between stakeholders by coordinating the planning and deployment of intelligent transport systems and smart mobility solutions in Europe and beyond.
