

TransiTool joins the ERTICO Partnership

ERTICO is pleased to announce that TransiTool has joined its Partnership.

[TransiTool](#) is a mobility technology company developing digital solutions that support smarter, safer and more sustainable transport systems. Through data-driven tools and innovative transport applications, TransiTool helps public authorities, transport operators and mobility stakeholders improve planning, operations and decision-making. The company focuses on enabling more efficient movement of people and goods while supporting the wider transition towards connected, intelligent and sustainable mobility.

ERTICO represents an important step for TransiTool in strengthening collaboration with leading stakeholders across the intelligent transport and mobility ecosystem. The company looks forward to sharing its expertise, learning from fellow Partners, and contributing to European initiatives that shape the future of transport. Together with the ERTICO community, TransiTool aims to advance innovative, sustainable and user-focused mobility solutions that deliver real value for society, public authorities and the transport sector.

“We are proud to join the ERTICO Partnership and become part of a respected network that brings together expertise from across the mobility sector. For TransiTool, this is an opportunity to engage in meaningful dialogue, contribute practical insights from our work, and help turn shared ambitions into real-world impact. We look forward to building strong relationships within the ERTICO community and supporting progress in European transport innovation,” said Zoi E. Papacharalampousm, CEO of TransiTool.

The ERTICO Partnership bridges the gaps between stakeholders across the ITS community to help make mobility safer, more efficient and sustainable. Together, we lead the digital transformation of transport through the development of cutting-edge technologies, new services and innovative mobility solutions to move people and goods in smarter ways. Our Partners share the joint mission to actively promote sustainable collaborative relations with EU institutions and policymakers by connecting local and regional transport organisations with national authorities.

Joost Vantomme, CEO of ERTICO – ITS Europe commented: *“We are pleased to welcome TransiTool to the ERTICO Partnership. As mobility becomes increasingly connected and data-driven, collaboration between technology providers, public authorities and mobility stakeholders is more important than ever. TransiTool's expertise will be a valuable addition to our ecosystem. By joining the ERTICO Partnership, they strengthen our collective ability to drive innovation and support the deployment of intelligent mobility solutions across Europe.”*

Joining the ERTICO Partnership is an important way to connect the dots between different sectors across our complex ecosystem. The Partnership enables close collaboration between stakeholders by coordinating the planning and deployment of intelligent transport systems and smart mobility solutions in Europe and beyond.
